

The Risk Solutions Department at MedPro Group is available with resources to assist you in enhancing the patient experience while reducing the risk of liability in your facility. We believe providing tools to the staff and physicians to improve communication and the relationship with the patient and/or family leads to better patient outcomes as well as increased satisfaction. **We are committed to providing service both proactively and reactively.**

➤ **PROACTIVE**

Education, hospital risk assessments, development of risk management strategies

➤ **REACTIVE**

Assistance with unexpected outcomes, early intervention strategies

➤ **ASSESSMENT**

- Comprehensive hospital assessment
- Identify educational programs that may be beneficial to the facility
- Provide report with recommendations for improvement
- Benchmarking reports available upon request
