

HIPAA Rx+

2018 CHALLENGES & UPDATE

Oklahoma City
04.24.2018

Tulsa
04.25.2018

WHY YOU SHOULD ATTEND

Successful physician practices don't just happen. The business of medicine becomes more complicated with each passing year. Faced with new challenges in the evolving healthcare environment, office managers must be prepared to respond in a timely fashion or risk financial loss or penalties. Join us as we address relevant areas of concern affecting the day-to-day activities in your practice.

Is your medical practice in compliance with HIPAA rules and regulations? If not, your practice could face fines, penalties, third party litigation, bad publicity and other legal actions. Our presenter will provide an update of HIPAA developments and areas of risk in order to address them and minimize your exposure to liability for HIPAA violations.

Confirm your understanding of current coding and billing standards and learn what's new for 2018 CPT codes. Gain clearer understanding regarding CMS audit methods and identify how to safeguard your practice from adverse findings in the event you are a target.

PRESENTERS

DIANA FLOOD, MS, RHIA

OKLAHOMA FOUNDATION FOR MEDICAL QUALITY

Diana Flood, MS, RHIA is a Clinical Consultant II on the Health Information Technology Team at Oklahoma Foundation for Medical Quality. She has seven years of experience working in health information in a variety of roles including HIM director, EHR implementation consultant, and database maintenance. She has consulted with physician practices and hospitals to successfully implement and meaningfully use EHRs, including assistance associated with vendor products, hardware, software and system configuration and troubleshooting, and staffing considerations. She is also skilled in workflow analysis, EHR utilization, security/privacy, rehab coding, and quality data reporting from EHR systems. Her credential as a Registered Health Information Administrator further validates her competence and exemplifies her expertise to work in health informatics. Diana received her Bachelor of Science degree in HIM and her Master of Science in Management from Southwestern Oklahoma State University.

RENEE M. BROWN, CMIS, ACS-EM, CHA

MEDICAL PRACTICE CONSULTANTS, INC.

Renee M. Brown, CMIS, ACS-EM, CHA is president and managing partner of Medical Practice Consultants, Inc. (MPC). For over 30 years, she has developed expertise in the essential operational activities of healthcare practices. Her extensive knowledge of the healthcare industry includes physician training and comprehensive analysis of billing, collections, and claim/remittance in addition to coding, documentation, and operational reviews. As a Certified Healthcare Auditor (CHA), Renee is distinctly qualified to assist organizations with determination of problematic root causes found in the healthcare organization, performing a gap analysis to assist the organization on corrective actions. Additionally, as a Certified Medical Insurance Specialist (CMIS), she fully understands the complete reimbursement process, documentation, and coding. Renee is an Advanced Coding Specialist for Evaluation/Management services (ACS - EM) allowing her the opportunity to audit E/M services with attention to the tough scrutiny from RAC and payer audits.
